National Intelligence Resources Board

Policy and Procedures for Control and Release of NIRB Documents

1. In general, and where substantive intelligence information is involved, the policy and procedures of the National Intelligence Resources Board with respect to the control and release of NIRB documents will conform to the provisions of DCID 1/7 "Controls for Dissemination and Use of Intelligence and Intelligence Information" of 5 October 1970.
2. Where NIRB documents deal with US intelligence resources, their costs, effectiveness, locations and characteristics, they will be marked "No Foreign Dissem" to prevent disclosure to any foreign service or individual. In approving such studies, the Board will determine whether or not to mark the document "No Dissemination Abroad" as well.
3. Control, reproduction and dissemination of NIRB documents within member agencies of the NIRB will be the responsibility of individual members of the Board. The dissemination of NIRB documents outside a NIRB member agency will be approved by the Chairman of the Board, the request for such dissemination being transmitted through the Executive Secretary of the Board.
4. Dissemination of NIRB documents and studies prepared for the Staff of the Assistant to the President for National Security Affairs requires approval by appropriate members of that Staff. Requests for such approval will be transmitted through the Executive Secretary of the Board who will forward the request with the approval of the Chairman, NIRB, and a recommendation for Staff response. If the request is approved, the Executive Secretary will be responsible for delivery of the report to the designated recipient and will request assurances that appropriate arrangements are made for its storage, destruction or return.
